### THREE-MONTH BREATHER

Partial operating subsidy for a period of three months has been made available to KPFA by the Fund for Adult Education of the Ford Foundation. In this period the Foundation and the station will study various plans for long-range development of the KPFA project and listener-sponsored radio. It is not a foregone conclusion that any subsequent grant will be made to the project. The purpose of the present three-month grant is to allow the station to continue uninterrupted while further study is made.

This three-month period is also regarded as a test period, to determine whether subscription receipts at KPFA will hold at the average level of the past several weeks (25 to 30 a week). For the first time in the project's struggling history a chance is offered to work to a definite and near solution of its capital problems - if KPFA can hold its own in obtaining new subscriptions

through November. Far from relaxing any of the recent subscription efforts, the station must at least maintain these, and if possible increase them.

Those who have aided in telephoning subscription prospects or in finding new subscribers among their friends have contributed greatly to the project's continuance. If as much or more of this same activity can be extended through the Fall, the test results at the end of November should be convincing.

### THE SARGENT-RAYMENT TUNER

Factory production of the SR-9 FM tuner has now begun, and the first units are expected to be ready in approximately a month. This instrument is manufactured exclusively for KPFA subscribers, to whom it is available at the factory cost (F.O.B. Oakland, including all taxes) of \$40.25 without cabinet. Further information may be obtained by writing or telephoning KPFA for a descriptive bulletin.
